### **Important Health Warning: Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

If you're new to *FIFA*, go to CUSTOMISE > SETTINGS & CONTROLS > CUSTOMISE CONTROLS to turn on assistance for specific moves. This makes passes and saves easier, without the need for perfect timing or positioning. When you're ready for more of a challenge, choose SEMI for less assistance or MANUAL to earn every one of your goals without aid.

# FIFA ULTIMATE TEAM

Create your own Ultimate Team, fine-tune it to perfect Team Chemistry, and try to reach the top of the FIFA Ultimate Team (FUT) leaderboards. Choose Players to build Squads with high Chemistry, buy or sell items on the 24/7 live Transfer Market, and play in a variety of both single-player and online game modes.

## GETTING STARTED

When you first start Ultimate Team, you'll learn how to swap and link Players to improve Team Chemistry before playing a starter match. From there, you can start your own Squad and explore the Transfer Market, Pack Store, and your Club.

## CHEMISTRY

Chemistry is at the core of what makes your Ultimate Team successful. Having a team of star Players can help you shine on the pitch, but your Squad must also have the right Chemistry to allow you to maximize its performance. The higher your Chemistry, the better your team performs during matches—and that means a better chance at winning games.

Your team's Chemistry Rating appears in the upper right corner when viewing your Active Squad. Placing players in their preferred positions can improve Chemistry. You should also encourage stronger Chemistry by matching Nationality, League, and Club Chemistry—green lines indicate strong links between Players.

Swap your players around on the Active Squad screen and add new ones from your Club or the Transfer Market to find the ideal balance for your team!

## CHEMISTRY STYLES

Every player in Ultimate Team has a Chemistry Style. This affects which attributes will be improved based on the Player's Chemistry Rating. Arrows appear beside the attributes that a specific Chemistry Style affects, and as you start building up Chemistry, they will turn from white to green.

To get the most out of your Squad, you can apply new Styles to Players to upgrade different attributes and, in turn, the team's overall tactics. The effects remain on a Player until a new Style is applied. You can find these Styles in Packs and on the Transfer Market.

## CONTRACTS

Before players can excel out on the pitch, they need Contracts to play matches. When viewing your Active Squad, highlight a Player and access the Actions menu, then select APPLY CONSUMABLE to apply a Contract to a Player. Move **R** to switch to the status view, which shows the amount of remaining Contracts for every player.

To give you a head start, the Players from your Starter Pack will come with special long-term Contracts (45 matches). All Players found in Packs start with seven Contracts, and each match they play reduces the number of Contracts by one. If a Player is in your subs or reserves but doesn't head onto the pitch at all, he does not lose a Contract for that match.

## MATCHES, TOURNAMENTS, AND SEASONS

Challenge your team and reap the rewards in Matches, Tournaments, and Seasons.

Tournament matches are always single-round knockout matches, and can be played online or as single-player games. Win matches to earn Coins, or take your team to the top and win a Tournament to gain Trophies, Coins, and sometimes even Packs.

Seasons consist of 10 games, playable Online or in Single Player mode. Try to make it through and win the Season or gain promotion! In this mode, the promotion, hold, and relegation system means that losing a match doesn't eliminate your team from the season, giving you the opportunity to bounce back from defeats.

Friendly Seasons allows you to challenge your friends in a five-match season format. Keep track of your record and other stats against every one of your friends, and win seasons to earn the Current Title Holder position and the bragging rights that come with it.

## TRANSFER MARKET

The Transfer Market is the hub for purchasing, listing, and selling items. Here, you can find new Players to increase your Squad's overall rating and Chemistry Rating. If you're looking for a new Player, use the search filters such as Quality, Position, Chemistry Style, and Pricing to quickly find the ideal footballer to complement your Active Squad.

## SEARCH BY NAME

If you want to search for a specific Player to fill out your Squad, use the first option in Player Search to type in his first or last name. This lets you easily select the Player you want based on the search results that appear.

## CONCEPT SQUADS

Concept Squads is a powerful new Squad Planning tool that lets you put together Squads using every Player available in FUT.

To use Concept Squads, select a Player or empty slot in the Active Squad screen, and then access the Actions menu to choose SWAP/ADD PLAYER. Use Concept Squads to plan out your next moves. Find replacements for a Player, test out the Chemistry of an entirely new midfield, or try a whole new Squad before investing in the Transfer Market.

## LOAN PLAYERS

Loan Players are Players that you can sign to your Squad for a limited number of matches, allowing you to try out some of the most highly sought after Players in the game. When you first create your club in FUT 15, you'll be given the opportunity to sign one Loan Player for free. More Loan Players are available in the Football Club Catalogue.

## PACK STORE

Purchase Packs from the store to find new Players for your Squad. You'll also sometimes earn Packs from winning Tournaments or as a special reward at the end of a Season.

## MY CLUB

As you gain new players through the Transfer Market and from Packs you have purchased or won, you will have more than enough for one Squad. My Club contains all of the Players not in your current Squad, as well as your Consumables and other Items.

## LEADERBOARDS

Check out the leaderboards to compare yourself to your friends or the top 100 FUT users across the globe as you build your Ultimate Team, play Tournaments and Seasons, and grow your Club.

## TOURNAMENT

Play an official league or tournament, or create a tournament and play matches to see who wins your fictional cup. Choose how many teams will participate and set the rules and fixtures to fine-tune the events.

Once you get started, you can play matches or simulate them. A screen with a calendar, team statistics, match results, records, and tournament brackets keeps you up to date as teams compete in hopes of becoming the tournament victors.

## BE A PRO

Play to win and bring the crowd to its feet in Be A Pro mode. You can take control of a specific player or goalkeeper on the field and follow all the action with the player-focused 3rd Person Cam. Select BE A PRO PLAYER or BE A PRO GOALKEEPER from Play panel to get started.

**NOTE:** The 3rd Person Cam is only available when playing as a single player in Be A Pro modes. When playing with your friends, the normal Be A Pro camera is used.

## BE A PRO PLAYER CONTROLS

If you're going to play as a pro, you've got to think like one. When your team is on the attack, time your runs and call for the ball at the right time. When defending, ensure you cover any dangers posed by your opponents. Teamwork is everything in football, and communication with your teammates is the key to success. Wherever you are on the field, make sure you use the following controls to increase your chances of victory.

Call for pass/Cross	<b>A</b>
Call for or suggest through ball	<b>Y</b>
Suggest shot	<b>B</b>

## INDICATORS

Be A Pro Player provides many of the same challenges faced by real players. Use the indicators provided to ensure you're in the best position on the pitch.

### POSITIONING

Knowing where to be on the pitch at any given moment is a must, whatever position you've adopted. In order to improve your positional sense, use the arrows as a guide. Follow them until they disappear to make sure you're in the right place at the right time.

### OFFSIDE

To ensure the assistant referee doesn't bring a swift end to another attacking move, make sure you keep an eye out for his flag. When you stray offside, a flag icon appears. To avoid being pulled up, run back past the last defender to get into an onside position.

### MARKING

Goals are often scored when opposing players are left unmarked, and it is your responsibility to make sure that doesn't happen. A red ring appears underneath any player with open room that you should be marking. Close in on them as soon as possible!

## BE A PRO GOALKEEPER CONTROLS

Goalkeeper is one of the most important positions on the pitch. In Be A Pro Goalkeeper, you take control of the goalie and must keep your team's net secure! **NOTE:** There are two camera modes in Be A Pro Goalkeeper. One allows you to follow the ball as the action takes place on the pitch. The other allows you to focus on the goalkeeper and prepare for oncoming attacks. Press  to switch between them in order to maintain appropriate positioning on the pitch.
